

Why CMI Commercial Investment Company?

Why is CMI Commercial Investment Company the right decision for your business needs? In one word...Experience. Here at CMI Commercial Investment Company, securing commercial loans for businesses is what we do. It is the ONLY thing we do. CMI has the advantage of having an underwriting system that underwrites your company's loan with 188 different banks, lenders, insurance companies, hedge funds, private investors, hard-money lenders...even a few foreign banks. If your company's particular circumstances need the help of additional lenders, we are approved with another 150 lenders not in our underwriting system. Since 2008, we have seen a complete shift in the lending parameters that required additional investors such as private investors, trust companies, hard-money lenders, and investor groups to assist in securing your commercial loan. In addition, you can count on good old fashioned creativity and thinking outside the proverbial box with our professional directors working on your loan. CMI's experienced Home Office Directors will work closely with you and your company in raising the capital your company requires. It is our obligation as a professional commercial consultant to assist you in presenting your company to the investor with your company's best interest in mind. We will steer your loan through the ever-changing lending market with ease...because CMI is constantly on top of that altering market. The commercial financing process can seem confusing or complicated to most business owners. Business owners don't have the time to spend assembling the necessary paperwork or trying to educate themselves on exactly how to qualify for a conventional or SBA loan program. That is when our expertise out-performs all other banks, brokers, consultants and intermediaries. Your loan will have an experienced director working on your project who only works on similar projects...giving your firm a lending edge. For example, if your project is an Alternative Energy Company, such as a Windmill Farm or Bio-Fuel project, our Director who specializes in Alternative Energy ONLY will be performing the Due Diligence on your loan. We know, as a business owner, your attention is needed elsewhere. Let your loan be our concern. Let us do what we do best, so that you can do what you do best...run your company. At CMI Commercial Investment Company, we secure loans for businesses like yours every day. We have proven procedures that work. Our standards are high. Our customer service is among the best in the industry. We will pursue your goals with the same passion you would commit to yourself. It is a CMI promise that our highly skilled professional commercial directors will surpass your expectations. Finally, and perhaps most importantly, CMI has approved investors who will lend from \$15,000,000.00 through \$BILLIONS! Very few commercial consultants, investment banks, or any bank...especially in today's market... can make that same claim. Contact us today with any questions you might have. Our fast, knowledgeable response and level of customer care will be apparent from your first conversation with us. Here at CMI Commercial Investment Company, "Your Business is our Business"
